About Dycron

Dycron Colour chem (P) Limited is engaged in production and development of food colours us in synthetic and natural components.

Our establishment was in the year 1999 as Dycron Colour Chem (P) Ltd. Just within 2-3 years of the start we had developed reached the pinnacle of product quality. Our main focus than, was to cater the domestic consumers and the merchant exporters.

Why Choose Dycron?

Certifications

Dycron holds numerous industry-leading certifications, ensuring our commitment to quality, security, and best practices. Our adherence to global standards provides you with peace of mind.

R&D and quality focus

Our dedicated Research & Development team is constantly pushing the boundaries of technology, ensuring Dycron delivers innovative solutions that are always ahead of the curve. We invest heavily in future-proof advancements.

Manufacturing excellence

Dycron is committed to unparalleled manufacturing excellence, driven by cutting-edge technology, and a highly skilled workforce. We ensure every product meets the highest global standards, fostering innovation and reliability in every step of the production process.

Sustainability initiatives

We perform stability testing under various environmental conditions to verify the durability and shelf-life of our synthetic colors. Safety evaluations ensure the product is non-toxic and suitable for intended uses.

Global Presence

India, Brazil, Vietnam, Thailand, Indonesia, Myanmar, Bangladesh, South Africa, Morocco, Yemen, Jordan, Russia, Mexico, Egypt, China

Key Stats

25+
Years

We've been delivering trusted chemical solutions since 1999, backed by deep industry expertise.

40+
Clients

We've successfully served a diverse client base across domestic markets and merchant exporters.

12+
Countries

Dycron products are trusted in over a dozen countries across Asia, Africa, and the Middle East.

Organic Pigments

Pigments

Organic pigments are naturally derived colorants used to enhance the visual appeal of food and beverages. Unlike synthetic dyes, they are obtained from plant, fruit, vegetable, and microbial sources—offering a safe, sustainable, and consumer-friendly alternative.

Key Features

- ▶ **100% Natural Origin:** Sourced from turmeric, beetroot, paprika, spirulina, red cabbage, and more.
- ▶ **Non-Toxic & Safe:** Free from harmful chemicals, heavy metals, and petroleum derivatives.
- ▶ **Eco-Friendly:** Biodegradable and produced through sustainable methods.
- ▶ **Clean Label Appeal:** Ideal for "clean label" and "all-natural" product lines.
- ▶ **Broad Compatibility:** Suitable for beverages, dairy, confectionery, bakery, snacks.

Packaging Options

Standard Packaging

- ▶ HDPE / LDPE Bags – 25/50 kg
- ▶ HDPE Drums

Custom Solutions

- ▶ Private labeling & branding
- ▶ Sample-size pouches
- ▶ Bulk jumbo bags

Logistics Ready

- ▶ Safe for air, sea & road
- ▶ Leak-proof & tamper-proof
